### HELMET SIZING INFORMATION

To achieve proper helmet fitment, begin by finding your head circumference size using the method described below. Remember that the helmet size you choose should fit around the crown of your head conformably with no pressure points. The cheekpads should fit firmly against your face. Once your chin strap is fastened, grab the chin bar of the helmet and move it side to side. Your cheeks should move with the helmet and not slide across your face. Different thickness cheekpads can be purchased to obtain the perfect fit.

### HEAD MEASUREMENT INSTRUCTIONS

Wrap a flexible tape measure around your head approximately one inch above the eyebrows, and ears. Use this measurement (in either inches or centimeters) to find your helmet size in the chart below.
